

Business Planning Process Document
Quality, Environmental, Health & Safety Policy

Morgan Advanced Ceramics, Rugby (MAC-Rugby) designs and manufactures advanced ceramic products for applications within the telecommunication, semi-conductor, defence, medical, laser and aerospace industries.

MAC-Rugby is committed to the continuous improvement of the organisation's capability to:

- Create customer satisfaction
- Improve quality, environmental and health & safety performance
- Set business objectives and targets
- Address all relevant stakeholder requirements
- Provide a safe, clean place of work and a safe system of work
- Prevent pollution created as a result of operational processes
- Comply with all relevant product, environmental and health & safety legislation
- Provide opportunities for employee development
- Communicate with employees, stakeholders and the public

To achieve these business objectives the MAC-Rugby quality management system shall comply with the requirements of the international standard ISO9001:2000 (Quality Management Systems), ISO 14001:2004 (Environmental Management Systems) and where required for medical device manufacture ISO13485:2003 (Quality Management Systems – Medical Devices).
